Caverion provides building solutions to the new headquarters of ÖAMTC in Vienna, Austria

Caverion has signed a contract with ÖAMTC, one of the leading Austrian Touring Clubs, for delivering building solutions to their new headquarters in Vienna, Austria. The value of the contract is approximately EUR 7.0 million and it covers design & engineering, project management and project execution.

The work will start in summer 2015 and it is scheduled to be completed in autumn 2016. The contract covers the technical disciplines of heating & sanitation, cooling, ventilation & air conditioning, security & safety and automation.

The new building complex with a total surface area of 27.000 m² comprises offices, conference and training rooms, a call center, a car technical base and a heliport.

"This project perfectly meets our aim to provide energy efficient life cycle solutions by sustainable and integrative building technologies such as geothermal heating of the new innovative ÖAMTC headquarters," says Manfred Simmet, Senior Vice President & CEO, Division Austria.

ÖAMTC belongs to Caverion's Real Estate Owners and Developers client segment.
