Caverion delivers technical installations to Billerud Korsnäs in Sweden

Caverion is delivering technical installation to the leading packaging material and solution company Billerud Korsnäs, which is constructing a new board machine at the facility in Gruvön, Sweden. Caverion is responsible for the technical installation of heating and sanitation, automation and process piping. The value of the contract is approximately EUR 10 million.

“Through this project we are able to contribute to the development of an important customer’s operations. Caverion has a long experience in providing energy efficiency technology and services in various projects, which is in line with our operations and our strategy. We are therefore proud of this contract,” says **Klas Tocklin**, CEO Caverion Division Sweden.

Caverion’s installation work started in December 2017 and will be finalised in December 2018. The agreement is divided into three separate parts: Special rooms, Office buildings and Brown fields.

Billerud Korsnäs belongs to Caverion's industrial client segment. [Read more about our projects to industry segment.](#)
